Trustee Moriarty wished everyone a Happy New Year

Trustee Skelton had nothing to report.

Trustee Chamberlin attended the seminar on zoning for solar farms and suggested the village address this issue in our code.

Trustee Wikman – SPD walking through school buildings is really helpful. He received several sidewalk complaints. Everyone needs to get out and help with the cleaning of the sidewalks.

Mayor Krebs explained that several towns have moratoriums on solar fields. Windmills and solar panels need to be looked at. Sidewalk complains – village code states that the property owner must maintain the sidewalks. In the village we have a practice of plowing the snow. This doesn't preclude the residents from maintaining the sidewalks. DPW's priority is to keep the streets and emergency routes open. Partnership on snow removal. After the three feet of snow it took a week or so to remove the snow. Suggested to the Trustees that we form a community development committee that would utilize the village master plan to advise the board on topics such as green energy, trees, etc. He has spoken to some residents that might be interested. Committee would meet quarterly and consist of Planning Board member, Trustee, Mayor and a few citizens.
