**Short Environmental Assessment Form
Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:		
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

There will be no or small significant adverse environmental impacts as this proposed action will allow snowmobiles to be on the Rail Trail.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

NEGATIVE DECLARATION
 Notice of Determination of Non-Significance

Project Number LL 9 of 2019

Date: 7/10/19

This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review Act) of the Environmental Conservation Law.

The Village of Springville as lead agency, has determined that the proposed action described below will not have a significant adverse environmental impact and a Draft Impact Statement will not be prepared.

Name of Action:

Local Law 9 of 2019 Amendments to Section 125-5 C, Adding Snowmobiles

SEQR Status: Type 1
 Unlisted

Conditioned Negative Declaration: Yes
 No

Description of Action:

Amend Section 125-5 C of the Village Code by adding the following language allowing snowmobiles. Motor vehicles, "snowmobiles on the Pop Warner Rail Trail excepted," shall at all times be prohibited from these locations.

Location: (Include street address and the name of the municipality/county. A location map of appropriate scale is also recommended.)

Entire Village

Reasons Supporting This Determination:

(See 617.7(a)-(c) for requirements of this determination ; see 617.7(d) for Conditioned Negative Declaration)

The Lead Agency has determined that there is no adverse condition for the Village of Springville.

If Conditioned Negative Declaration, provide on attachment the specific mitigation measures imposed, and identify comment period (not less than 30 days from date of publication in the ENB)

For Further Information:

Contact Person: Mayor William J Krebs

Address: 5 W. Main St PO Box 17 Springville NY 14141

LL 9 of 2019 Amendments to Section 125-5 C. Adding Snowmobiles.

§ 125-5. Park and recreational facilities. [Added 10-20-2003 by L.L. No. 9-2003¹; amended by 2-6-2017 by L.L. No. 1-2017]

- A. All Village-owned park and recreation facilities, namely Fiddlers Green Park at Franklin and North Buffalo Streets, Eaton Park (the tennis courts and spray park on North Central Avenue and Franklin Street), Shuttleworth Park off South Buffalo Street between the public parking lot and Spring Brook, Heritage Park at 65 Franklin and the 1.8 mile Pop Warner Rail Trail (which is the B&P Rail Corridor within the Village limits) shall be closed to the public at times to be posted at each location, as determined by resolution of the Village Board.
- B. The period that such facilities are closed to the public may be modified by resolution of the Board of Trustees in individual cases for public or private events permitted by the Board.
- C. It shall be unlawful for any person to be in a Village park or recreation facility at any time during the period that such facility is closed to the public. Motor vehicles, snowmobiles on the Pop Warner Rail Trail excepted, shall at all times be prohibited from these locations.
- D. This section, § 125-5, shall not apply to the Village's contractors, officers or employees while engaged in the performance of their Village duties.
- E. Rules and regulations for each individual park or recreational facility may be established by resolution of the Village Board.
- F. A notice of the prohibition and rules and regulations authorized or contained in this section shall be conspicuously posted at each Village park and recreation facility.

1. Editor's Note: This local law also renumbered former § 125-5 as § 125-6.

Superintendent Report for July 15, 2019

ATTACHMENT NO. A4

AGENDA DATE 7/15/19

Report:

Response to Shuttleworth lot issues from Mayor.

1. Type of sealing process used, and description of the process, including the technical reasons why it preserves the surface and the expected life expectancy of the job.
Process used was oil and chipping (same process we use on all Village road for decades). Thin coat of oil mixed with polymer adhesive, apply thin layer of #1 crushed limestone, rolled with asphalt roller, sweep up stone that is loose. This system provides a wear layer for traffic. Village streets last a few years between applications.
2. Reason for the selection of this type, including price and others methods which were not selected.
Due to poor condition of asphalt in lot, crack sealing and a sealer would not add structural integrity to the pavement. This surface treatment has had excellent history, and fit into budgeted amount.
3. Chronology of the job from its inception to the present mitigation actions.
Project was in the 2018-19 General fund budget. Due to high frequency of rainfall events, project was scheduled for first dry day in May (last month of that budget year). Cause of issue from moisture trapped in ground under pavement evaporating during the past sunny and hot weather, pulling oil to the surface.
4. Problem mitigation procedure including the reason for spreading stone and the future application of sand.
Contacted Suit-Kote and advised them of issue. Told them we were applying additional stone, Suit-Kote said after that stone gets worked in to apply fine sand to tighten any other soft areas.
6. Reason why only drive lanes were mitigated.
Drive lanes appeared to be worst areas affected, any other areas that appear oily will be coated with sand.
7. Product and workmanship liability claims if any.
No product failure or workmanship failure found. Weather conditions caused issue, failure by Suit-Kote to pre-advise this may happen is a possibility. When I informed suit-kote they said it rarely happens, only cited two similar situations in past 10 years.
8. Number of complaints by residents or users about damage to clothing and vehicles. and how the claims have been handled.
2 complaints received to DPW – tar on vehicle (new white truck) report taken and pics, provided estimate for detailing submitted to Suit-Kote. Suit-Kote rep working on reimbursement to complainant. One phone message received from Village office – tar and stone on tires. Supt. Called person and left voicemail, no response yet.
- 9.. Number of complaints by business owners and how the complaints have by handled.
None received from business owners.
10. Anticipated length of time before the mitigation is complete. And the possible need to restripe the parking lot.
Mitigation will be weather dependent, need more hot dry days to evaporate more trapped water. DPW will continue to add stone and sand in oily areas. DPW can re-stripe if needed.

Electric Resolution:

Recommend resolution to advertise for sealed bid for new 1-ton cab and chassis with dump body as budgeted for in the 2019-20 electric budget. Bids will be opened August 7, 2019 at 9:00 am.

Recommend resolution to declare #28 2012 Chevrolet 3500 1-ton Cab & Chassis with dump body and plow, VIN #1GB3KZCG6CF117690, surplus and dispose of via trade in as part of 2019-20 Electric budget.

Recommend resolution to award Irby - Electric Distributors, 4583 Buckley Road, Liverpool, NY 13088 as a result of a public bid opening on June 27, 2019 for various fiber optic materials. Prices on materials are good for one year, this project bid amount will be \$29,768.00 for 48, 12, and 24 strand single mode cable, connectors and pole attachment materials.

WWTP Report:

BSA still having issues and reduced amount of sludge hauling they are willing to accept. Village of Westfield is taking our sludge as needed. Hauling 1 – 2 loads per day.

Sidewalk replacement at trickling filter has been replaced per recommendation by NYDEC spring inspection.

Purchased 3 new pumps for trickling filter well, high snail loading is damaging seals in pumps. Purchased Wilo pumps that have better seals around bushings and bearings.

Water / Sewer Report:

Hydrant replacement in Shuttleworth Park is near completion. Project duration is approx. 2 weeks. Contractor will install new hydrant and connection to Pearl first, then perform abandonment in NYS 39 ROW on July 21 during the early morning hours to minimize service interruptions. Water shut down will be for 2 hrs if everything goes as planned.

United Survey Inc. manhole rehabilitation project will be closed out. Remaining manholes will be completed by others. Water/Sewer Division is developing list of additional leaking manhole to rehabilitate.

Well #3 is having issues with power transfer switch, will be on standby only, service call made to electrical contractor to repair.

Water / Sewer Resolution:

Recommend resolution to advertise for bids to perform Well #1 rehabilitation with a bid opening date of August 2, 2019 at 9:00am, 5 W Main Street, Springville NY 14141. Project will be awarded to lowest responsible bidder during August 12th Village Board meeting.

**VILLAGE OF SPRINGVILLE
PLANNING BOARD MINUTES**

June 11, 2019

7:00 P.M.

A meeting of the Planning Board of the Village of Springville was held at the Village Municipal Building, 65 Franklin Street, Springville, New York at the above date and time. Present were:

Chairman:	Bob Muhlbauer
Members:	Terry Skelton Joe Emerling Ken Heidle Greg Keyser
Building Inspector/ CEO:	Mike Kaleta-absent
Clerk:	Kellie Grube
Also Present:	Alan Chamberlin, Trustee Ken Kostowniak, Superintendent Joe Palumbo- Carmina, Wood & Morris Joe Dorobila- Carmina, Wood & Morris

After the Pledge to Allegiance, Chairman Muhlbauer called the meeting to order at 7:03 pm.

With no Public Hearings on the agenda this evening, Chairman Muhlbauer first asked Mr. Joe Palumbo and Mr. Joe Dorobila of Carmina, Wood and Morris Architects to come up. Mr. Palumbo and Mr. Dorobila were present to introduce themselves as the Architects that are working on the Bertrand Chaffee Medical Arts building. They wanted to present the Planning Board with their preliminary plans and listen to any feedback that the Planning Board has. Mr. Palumbo stated that the building will be essentially a four story building. With that being said though it will be three stories on the other side due to the grade on which it is going to be built. This new building, though larger in square footage, the actual footprint of the building will be slightly smaller than the building that was there previously and therefore there will not be a lot of disruption to the existing site. The parking lot plans and traffic flow were also discussed. Member Greg Keyser stated that he was uncertain about the parking that will be towards E. Main St. There are no other businesses in the area that have parking right on Main St. Mr. Palumbo explained that there was a good chance that the parking up front would be for employees and that due to the size of the building and the proximity of all of the other parking they felt that the additional parking was needed. This prompted the Planning Board to discuss the possibility of perhaps some landscaping or some kind of a buffer to offset the Main St. parking and make it more esthetically pleasing. The Planning Board thanked Mr. Palumbo and Mr. Dorobila and

Page 2
Planning Board Meeting
June 11, 2019

informed them that they look forward to working with them and are pleased to see such a nice facility come to Springville.

Next, Superintendent Ken Kostowniak was on hand to answer any questions that the Planning Board may have regarding a Memorandum from Village Attorney Paul Weiss regarding modifications and recommendations to the existing Village of Springville's Tree Ordinance.

The Planning Board discussed with Mr. Kostowniak the changes that he would like to see and what the Planning Board envisions Village streets to look like in the future. Mr. Kostowniak stated that he would like to see more streets with a nice tree lined façade and in order to accomplish it the Village needs a more current ordinance. Member Terry Skelton voiced concerns of future cost to tax payers with tree lined streets due to the damage the trees can do to electric lines, sidewalks and the general cost to have diseased trees taken down. Mr. Kostowniak said that by limiting the types of trees he is hoping to eliminate some of those issues.

One of the things that the new ordinance should do is ensure that in the future, interference or damage to Village property is kept to a minimum. The ordinance addresses this by limiting the type of trees that could be planted and it was suggested also that perhaps an agreement with homeowners could be drawn up.

At this time, the Planning Board likes the idea of more trees in the Village and would like to see more tree lined streets in the future. Once the final revisions are done on the ordinance, they would like to make the recommendation to the Village Board of Trustees to accept it. Chairman Mulbauer asked for a motion to make the recommendation. Member Joe Emerling made the motion, all in favor, none opposed.

Lastly, Chairman Muhlbauer asked for a motion to approve the minutes from the May 14, 2019 meeting. Member Terry Skelton made the motion, seconded by Member Greg Keyser. All in favor, none opposed.

At 8:03 pm Chairman Muhlbauer asked for a motion to adjourn the meeting. Member Ken Heidle made the motion, seconded by Member Joe Emerling. All in favor, none opposed.

Respectfully Submitted,

Kellie R. Grube
