

LAWN & SNOW REMOVAL EQUIPMENT REBATE

Did you know that gasoline powered yard care equipment lack strong emission controls and are widely recognized as a major source of air pollution? Millions of gallons of fuel are spilled each year during refueling and these spills can make their way into our drinking water. Switching to electric yard care equipment can significantly reduce the quantity of pollutants released into the environment each year.

Your New York municipal electric utilities and the Independent Energy Efficiency Program (IEEP) are sponsoring this program to encourage their customers to upgrade their mowers and snowblowers to electric battery powered equipment.

To receive your rebate without delay, fill out both sides of this form completely and mail (or email) to the address below, along with:

- ▶ A copy of your dated sales receipt showing the make and model number of the equipment purchased
- ▶ A copy of your most recent electric bill showing that you are a municipal electric utility customer

Mail to: IEEP, P.O. Box 2489, Syracuse, New York 13220-2489, or email to IEEPRebates@gmail.com
(Please *do not* send this form with your utility bill payment)

Mowing an average sized lawn using a gas-powered mower can produce the same amount of pollution as a 100-mile car trip.

▶ GENERAL TERMS AND CONDITIONS:

1. During the life of this program each customer account is limited to 1 push lawn mower, 1 riding lawn mower and 1 snow blower which must be used at the address served by the participating Electric Municipal Utility.
2. All rebates will be limited to a maximum of 25% of the purchase price.
3. Each electric account will be limited to \$250 for the life of this program.
4. Equipment must be purchased new, and not be refurbished.
5. Only equipment purchased on or after October 1, 2021 are eligible. This program will end September 1, 2023 or while funds last. The IEEP reserves the right in its sole discretion to terminate or modify this program at any time.
6. Rebate forms must be submitted within 6 months of purchase date.
7. The equipment must be used at an address served by a participating Electric Municipal Utility.
8. The equipment must have an external battery and the battery must be included with the purchase of the equipment.
9. Corded equipment is not eligible for this rebate.
10. Your electric utility and the IEEP assume no responsibility for performance of equipment and equipment warranty.
11. The IEEP reserves the right to inspect or verify purchase of rebated equipment.
12. Customers are responsible for any such tax implications associated with this rebate.
13. The customer relieves the electric utility and IEEP of any and all liability associated with this project.
